Party Responsible for Payment of Construction, Connection, Metering Costs and/or Payment of Monthly Utility Bill		
Name:	Address:	Phone #:

Additional costs for electric service: Most subdivisions have the electric utilities installed with site development and no additional service extension fees are required. Lots that have been subdivided or that are in overhead wiring areas will have additional costs payable to Longmont Power & Communications (LPC) to connect the electric service. Please contact LPC at 303-651-8386 to initiate this design process.

I hereby acknowledge that I have read this application, filled out in full the information required and have completed an accurate plot plan. I state that all of the information required is correct. I agree to build this structure according to the Ordinances of the City of Longmont, Colorado.
