

Electric Power Supply

Platte River Power Authority

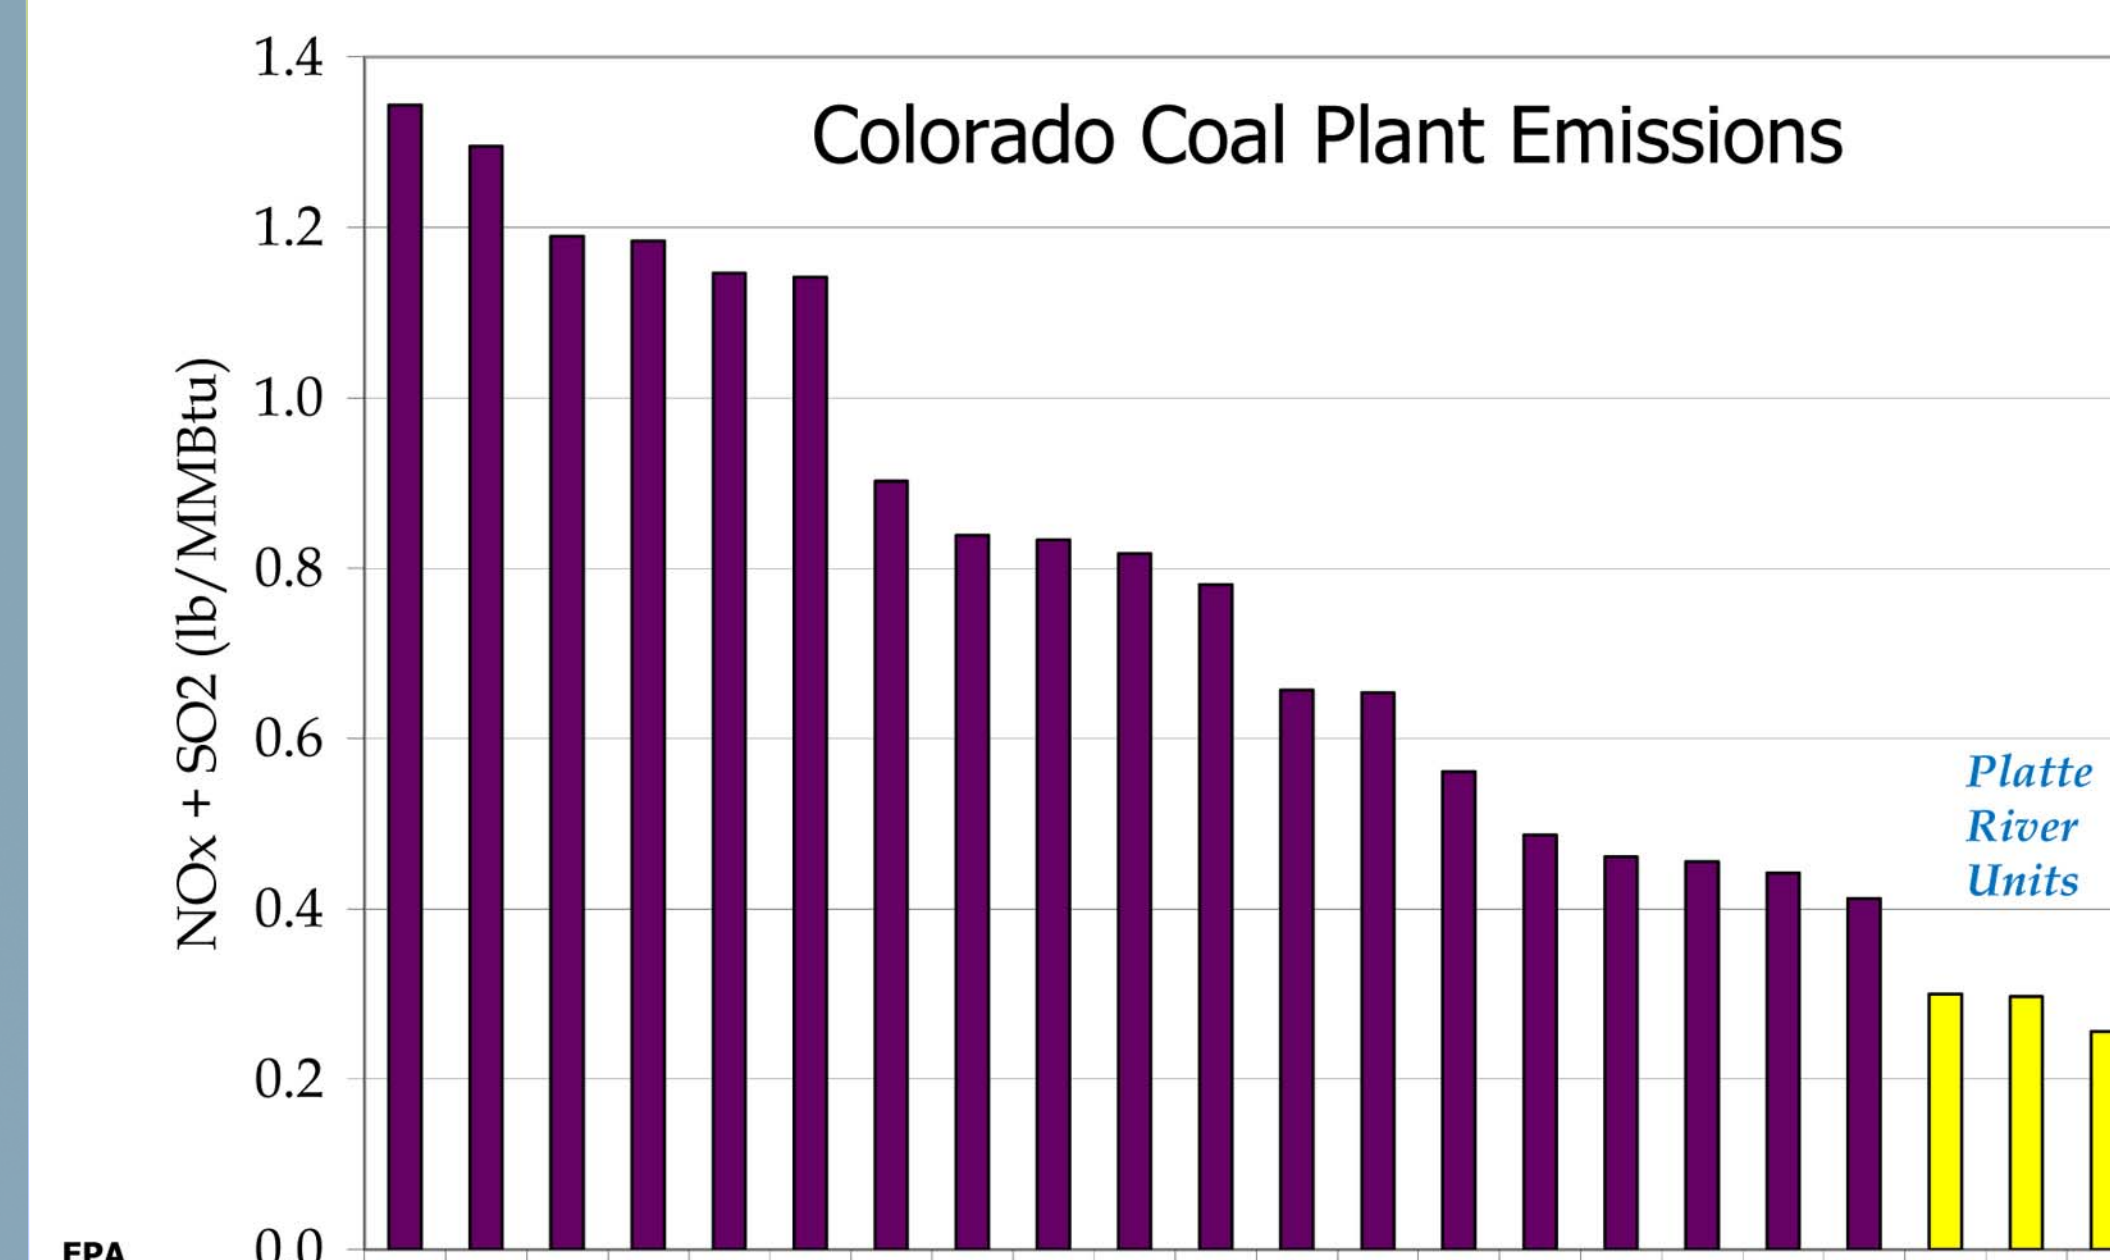

-  Provides the City of Longmont with reliable, low-cost and environmentally responsible electricity
-  Owned by the cities of Longmont, Fort Collins, Loveland and Estes Park
-  The **only** electric power supplier in Colorado to maintain 100% environmental compliance in all operations since inception
-  First utility outside California to join the California Climate Action Registry, and a founding reporter of The Climate Registry
-  Electric generation sources include coal, hydro, natural gas and wind. Platte River's coal-fired plants are among the cleanest in Colorado and the nation
